FIELD PROJECT OUTLINE

PROJECT CRYPTONYM: CAMLET

RECOMMENDED BY: ☐ ☐ ☐ ☐ Jan-June 1950

                     ☐                       
Chief of Field Installation

                      
Date

1. Area of Operations and Headquarters: Germany, Karlsruhe (Berlin Operations Base).
2. References: OPC avails itself of the printing and distribution facilities of CAMLET's organization for purposes in line with its primary mission. All transactions involved, however, are handled through the BOB case officer only and no operational data have been communicated to the local OPC representative.

Agent CAMISE, now run by FOB, is in the employ of CAMLET.

Initial contact between the senior FOB representative and            ☐ was arranged by CAMLET.

Project reports on both CAMISE and ☐ will be submitted by FOB.

3. Aims:
  - a) Objectives. Our objectives are to exploit CAMLET's professional contacts in journalistic and political circles, to utilize his first hand knowledge of local Berlin and of East Zone conditions and to cultivate him in his capacity as an important SPD functionary who takes a determining share in the formulation and implementation of SPD policies.
  - b) Targets. Our targets are the policy making branches of the East Zone government and the inner councils of the SPD both in Berlin and in Western Germany.
  - c) Tasks. CAMLET's tasks in our behalf are to make available operational data leading us to the above-mentioned targets, to use his prestige in the SPD in furthering our long range investments in West German government agencies, to permit us the use of his commercial and journalistic enterprises for the purpose of establishing agents in cover positions. (e.g. CAMISE)

DECLASSIFIED AND RELEASED BY  
CENTRAL INTELLIGENCE AGENCY  
SOURCE METHOD EXEMPTION 3B2B  
KAZI WAR CRIMES DISCLOSURE ACT  
DATE 2007

4. Personnel: CAMLET LBX-659, 5 December 1946
5. Cover: CAMLET serves us in his overt position as ranking journalist and prominent SPD functionary. It may be presumed that through [ ] he is aware of the identity of the agency, which the case officer represents.
6. Contacts and Communications: Contacts take place in CAMLET's office and in one of our operational establishments alternately.
7. Control: Our control over CAMLET is strictly ideological, and contingent upon a continuing community of interests. There is no element of control assuring us a hold upon his allegiance independent of political and practical considerations which induce him at present to collaborate with us.
8. Special Equipment: None.
9. Coordination: This project requires closest coordination with FOB [ ] which has an important stake in our relationship with CAMLET.
10. Timetable: None.
11. Estimated Cost: Operating expenses required for a period of six months beginning 1 January 1950 amount to 600 Westmark and \$180 for entertainment and occasional gifts.
12. Special Problems and Commitments: There are no commitments associated with this project. We anticipate that CAMLET may want to pay a visit to the United States some time in 1950. Any assistance the organization might see fit to render in making his trip a pleasant and informative one would no doubt be conducive to cementing our relations not only with CAMLET but also with [ ] .
